Carlos:

Carlos is a very dedicated team member, always finishing his work early and he is passionate about this project and always willing to help others. He communicates effectively in the meeting and shares his approach clearly with the rest of us. He is a great team member to have!!

John:

I am glad to have John in my team. He tried Bootstrap to "renovate" our UI! He went through a lot of difficulties make our UI design appealing by fixing all the bugs. Also, John is great in helping others debugging and spotting out the source of errors quickly. It's my pleasure to work with him for this project.

Jonatan:

Jonatan is a great team member and does an awesome job in getting the matching algorithm done. He also took a step ahead and implemented the recommendation system for our project! I am glad to have worked this project with him.
